

J-PLASMA™

Surgical Skills Course

Location

Meridian Institute of Surgical Assisting
1507 County Hospital Road
Nashville, TN 37218
<http://www.meridian-institute.edu/>

Overview

This course is being offered to surgeons currently performing laparoscopic surgery who want to expand their knowledge of gas plasmas, as well as electrosurgery and the appropriate uses. The use of J-PLASMA™ will be highlighted to illustrate this new technology and the benefits to the surgical outcome. The hands-on lab will emphasize procedure selection and surgical techniques used with J-PLASMA™.

Faculty

Royce T. Adkins, M.D.
Phillip L. Bressman, M.D.
Tennessee Women's Care, PC
www.AdkinsBressmanWomensCare.com
Nashville, TN

Objectives

At course completion, the participants will have:

- Proficiency in surgical energy modalities necessary for clean surgical outcomes.
- Clarity in laparoscopic situations ideal for J-PLASMA™.
- Thermal effect knowledge of surgical tools and proper application techniques.
- Detailed knowledge of J-PLASMA™ technology.

Agenda

- Surgical energies and indications
- Case techniques and selection
- Situational tools and indications
- Faculty techniques
- Hands-on Lab
- Question and Answer
